CRISTIAN ENCALADA

FULL STACK DEVELOPER | ELECTRONICS ENGINEER

- Moved from **Bolivia** to Uruguay willing to **contribute** as a **Full Stack Developer**.
- **1+ year** of experience building software projects. Comfortable with **backend**, **frontend** and **devops**..
- Solid knowledge in **Python** and **Javascript** languages, and **React**, **Node.js** and **Express** frameworks.
- **2 years** of experience as a **QA Software Engineer** using **Scrum** as an agile methodology.
- Capable of working **independently** demonstrating **commitment** and **responsibility**.
- Capable of **collaborating** with a **team** demonstrating **teamwork** and **effective communication**.
- Proficient in **English** (B2), **technical writing** and **documentation**.

EXPERIENCE

SOFTWARE DEVELOPER | Freelance | Feb 2023 - Present | Uruguay
- Developing web applications with technologies such as **Python**, **JavaScript**, **React** and **Node.js**.
- **Collaborating** with other developers to create more **complex** and **robust** applications.
- Implementing **unit tests** and **writing** software **documentation**.
- **Containerizing** and **deploying** applications with diverse **software architecture** and **design patterns**.

SOFTWARE QA ENGINEER @ Jalasoft S.R.L. | Feb 2018 - Feb 2020 | Bolivia
- Analyzing and performing different **testing techniques** (functional, performance, regression, end-to-end, white/black box) and automated tests using tools like **Git**, **Selenium**, **Jira**, **SQL**.
- **Progression** from **Trainee** to **Junior QA Tester** within 9 months and eventually achieved an open-ended contract as a **QA Software Engineer. Collaboration** with different teams (Front-end, Back-end, DevOps, and Automation, **ETL**) acquiring experience in **CI/CD** tools (Jenkins) and **SDLC/ETL** processes.
- **Personal achievement:** Created a **technical manual** for the testing team, detailing the steps to configure a virtualized local environment for ETL testing.

IT TECHNICIAN @ Soft Computers. | Apr 2017 - Feb 2018 | Bolivia
- Provided **technical support** for hardware and software, including operating systems installation (Linux, Windows) and virtualization.
